

INDEX OF SUBJECTS

Original Articles

A

- Abbott EIA®, for carcinoembryonic antigen, Roche RIA® values compared, in benign and malignant biliary obstructions, 589
- Abscess, corneal, due to *Klebsiella ozaenae*, 655
- N-Acetyl- β -D-glucosaminidase, urinary, as indicator of renal allograft rejection (abstract), 395
- Acid phosphatase, prostatic, paraurethral glands positive for, in human females (abstract), 263
- Acquired immune deficiency syndrome (AIDS)
- clinical and pathologic findings of liver in, 582
 - cytoplasmic inclusions in lymph node lymphocytes in (abstract), 270
 - human T-cell lymphotropic virus-I and, 450
 - Listeria monocytogenes* sepsis and small cell carcinoma of rectum in, 385
 - marrow in (abstract), 269
 - multicentric angiofollicular lymph node hyperplasia followed by Kaposi's sarcoma in, 27
 - prodromal, ultrastructure of retrovirus in lymph node in (abstract), 270
- Acridine orange, Hirschsprung's disease confirmation using, 722
- Adamantinoma, of pretibial soft tissue, 108
- Adenitis, nontuberculous mycobacterial, of childhood (abstract), 399
- Adenocarcinoma(s)
- ductal, of salivary glands (abstract), 261
 - gastric, carcinoid tumor concurrent with, 233; (letter), 538
 - organ-specific, diagnostic utility of monoclonal antibodies to tumor-associated antigens (abstract), 260
 - papillary, of endometrium (abstract), 393
- Adrenal(s), myelolipomas of, alimentary tract ganglioneuromatosis-lipomatosis, pancreatic telangiectasias and multinodular thyroid goiter with, 744
- Aeromonas sobria*, gastroenteritis due to, in adult, 389
- Aganglionosis. See Hirschsprung's disease
- Agar diffusion test(s), for anaerobic susceptibility (abstract), 398
- Agarose gel, Factor VIII inhibitor identification and quantification using, 697
- Agglutination, of EDTA blood sample, due to EDTA-dependent pan-agglutinin, 534
- Agglutinin(s), cold, spurious macrocytosis due to, on Ortho ELT-8® Counter, 218
- AIDS. See Acquired immune deficiency syndrome
- Albumin, platelet thromboxane production defect dependent on, 687
- Alcoholic hepatic disease, fat-storing cells in, histochemical study, 47
- Alcoholism, laboratory test changes persisting after abstinence, 474
- Alpha-1-antitrypsin
- deposits in liver of patient with PI EilembergM phenotype, 503
 - fecal, measurement of, in protein-losing enteropathy diagnosis, 326
- American Journal of Clinical Pathology*, manuscripts received by (editor's report), 772
- Amnionitis, leukocyte esterase test strip in detection of (abstract), 271
- Amniotic fluid assay(s), interlaboratory precision, 382
- Ampicillin, susceptibility to, in *Proteus* speciation, 87
- Amyloidosis, secondary, in cystic fibrosis (abstract), 261
- Anaerobe(s)
- See also particular organisms
 - susceptibility testing of, by agar disc diffusion (abstract), 398
- Anal canal, carcinoma of, 159
- Analyzer(s), hematology. See Counter(s); particular models
- Anemia. See Sick cell syndrome(s); Thalassemia
- Angitis, benign lymphocytic, and granulomatosis, spontaneous, in NZB/W mice (abstract), 266
- Angioendotheliomatosis, malignant, lymphoid differentiation in, 244
- Angiofollicular lymph node hyperplasia. See Giant lymph node hyperplasia
- AN-IDENT®, anaerobic bacteria identification with, comparative evaluation (abstract), 272
- Antibody(-ies)
- See also Autoantibody(-ies)
 - blood group
 - identification of, computerized selection of panel red blood cells by phenotype for (abstract), 397
 - microcomputer for use in identification, 469
 - screening for, with abbreviated crossmatch (letters), 133, 133 - cytomegalovirus, serologic tests for, 622
 - erythrocyte, computer-assisted identification (abstract), 268
 - hepatitis B core antigen, prevalence in anti-HBs positive individuals (letters), 538, 539
 - hepatitis B surface antigen
 - prevalence in multitransfused patients (letters), 538, 539
 - selection of candidates for vaccine using (letters), 538, 539 - to human T-cell lymphotropic virus-I membrane antigens, in AIDS patients and hemophiliacs, 450
- monoclonal
- ABH blood group isoantigen expression in breast carcinoma evaluated with, 308
 - B-cell lymphoma with cerebriform nuclei studied with, 753
 - conjugation to fluorescein-containing microspheres, for simultaneous morphologic, cytochemical and surface antigen analysis of individual cells, 7
 - covalent attachment of cells to glass slides for use with, 356
 - cytokeratin, Paget's cell study using, 431
 - follicular lymphoma with blastic conversion studied with, 681
 - hairly cell leukemia differential diagnosis using, 289
 - melanoma and pigmented nevi studied with (abstract), 261
 - progressively transformed follicular centers studied with, 560
 - rapid one-step immunostaining using, with avidin-biotin complex method, 636
 - sensitivity enhancement of cytologic detection of cancer cells in effusions with, 571
 - S-100 protein demonstrated with, in T-lymphocytes, 69
 - to T-cell subsets, reactivity with splenic sinusoidal lining cell antigens (letters), 406, 406
 - to tumor-associated antigens, diagnostic utility for organ-specific adenocarcinomas (abstract), 260
 - synovial, in artificial prosthesis implant patients (abstract), 267
 - Toxoplasma-specific IgM, separation of, in toxoplasmosis diagnosis, 196
- Anticoagulant(s)
- See also particular anticoagulants
 - circulating, agarose gel method for identification and quantification of, 697
 - monitoring therapy with, international normalized ratio for prothrombin time reporting in, 775
- Antigen(s)
- B1, in primary mediastinal non-Hodgkin's lymphomas, 676
 - B-cell, structurally novel (abstract), 398
 - blood group
 - ABH, isoantigen expression in breast carcinoma, monoclonal antibody study, 308
 - Lewis, on platelets, 90
 - P, on platelets, 731

- CA-1, usefulness in aspiration cytology and body fluid cytology (abstract), 400
- carcinoembryonic
in benign and malignant biliary obstruction, Roche RIA® and Abbott EIA® values, 589
cervical carcinoma antigen and, in cervical smears, 301
- cell surface, fluorescent microsphere detection of, and simultaneous cytochemistries in individual hematopoietic cells, 7
- cervical carcinoma, distribution and cellular localization of, in uterine cervix smears, 301
- Factor VIII-related, in neoplastic cells of malignant angioendotheliomatosis, 244
- hepatitis B core, in liver in acquired immune deficiency syndrome, 582
- hepatitis B surface, in liver in acquired immune deficiency syndrome, 582
- HLA-DR, on splenic sinusoidal lining cells (letter), 406
- Ia, in primary mediastinal non-Hodgkin's lymphomas, 676
- leukocyte common, in neoplastic cells of malignant angioendotheliomatosis, 244
- nonspecific cross-reacting, cervical carcinoma antigen and, in cervical smears, 301
- Antiglobulin test, in abbreviated crossmatch (letters), 133, 133
- Antithrombin III
deficiency, stanazolol for, 768
- DuPont aca® measurement of, comparative evaluation, 541
- Artifact(s), embolic tubular epithelial cells in percutaneous renal biopsies, 716
- Asbestos, bodies in carcinoma of colon in insulation worker with asbestos exposure (abstract), 392
- Aspiration biopsy. See under Biopsy(-ies)
- Assay(s)
See also Immunoassay(s); Radioimmunoassay(s); particular substances, kits and procedures
radioligand, Lewis antigen detection with, on platelets, 90
- Autoantibody(-ies)
anti-tissue, glucose oxidase assay for, 601
causing immune cytopenia, simplified radioimmunoassay for, 12
- Autofluorescence
of lipofuscin granules? (letters), 134, 134
of *Rhinosporidium seberi* (letter), 132
- Automation. See particular instruments, types of instruments and procedures
- Autopsy(-ies)
findings in lungs of neonates (abstract), 392
under local official auspices (abstract), 394
prospective quality control (abstract), 394
- Average of normals method, in quality control of radioimmunoassays, 206
- Avidin-biotin complex method
fetal Rh-D positive cell detection with (abstract), 397
lymphocyte marker studies using, in chronic lymphocytic leukemia (abstract), 265
nonspecific mast cell staining by (letter), 134
rapid one-step staining procedure with preformed antibody-avidin-biotin-peroxidase complexes, 636
terminal deoxynucleotidyl transferase detection by
in acute leukemia, 366
in cell smears, 565

B

- Babesiosis, inclusions missed by automated analyzers, 520
- Bacterium(-a)
See also Anaerobe(s); particular families, genera and species
rapid identification systems, comparative evaluation (abstract), 272

Bacteriuria

- low-colony-count, septicemia and, 619
- screening for
with Chemstrip 9™, 740
with Chemstrip® L/N, 84
- Basophil(s), precursors of, in blast crisis of chronic granulocytic leukemia, 254
- B cell(s). See under Lymphocyte(s)
- Biliary duct obstruction, carcinoembryonic antigen levels in, determined by Roche RIA® and Abbott EIA® methods, 589
- Biopsy(-ies)
aspiration
CA-1 antigen's usefulness in cytology (abstract), 400
endoscopic vs. fine-needle, for pancreatic carcinoma diagnosis, 171
histocytologic diagnosis of pancreatic cancer by, 409
in pulmonary tuberculosis diagnosis, 719
marrow, immunoenzymatic labeling of, for hairy cell leukemia differential diagnosis, 289
open-lung, cytomegalovirus detection in specimens, 371
rectal, colonoscopy with, for dysplasia and carcinoma detection in chronic ulcerative colitis (abstract), 262
renal, percutaneous, embolic tubular epithelial cells in, 716
- Blast crisis, in chronic granulocytic leukemia, mast cell and basophilic precursors in, 254
- Bleeding time, in hemophilia A, Ivy vs. Simplate® method, and clinical associations, 211

Blood

- See also particular constituents and determinations
covalent attachment of cells to glass slides for immunohistochemical assays, 356
cultures. See under Culture(s)
fecal, occult, tetramethylbenzidine extraction test for, 486
- Blood group antibody(-ies). See under Antibody(-ies)
- Blood group antigen(s). See under Antigen(s)
- Blood vessel(s), benign invasion of, by epithelial tissue, in vasitis nodosa, 426
- Bone marrow. See Marrow
- Brain, selective regional vulnerability to ischemia, regional creatine kinase isoenzyme activity and (abstract), 264

Breast

- carcinoma of
ABH blood group isoantigen expression in, monoclonal antibody study, 308
cytologic detection of cancer cells in effusions in, sensitivity enhancement with monoclonal antibodies, 571
hormone receptor assay in, interference of O.C.T.® embedding compound in (letters), 404, 404
- Paget's cells of, common cell phenotype with extramammary Paget's cells, 431
- solitary plasmacytoma of, 230
- tumor cytosols, IgG levels and hormone receptor activity in, 364
- Bull's algorithm, quality control of multichannel hematology analyzers using, 337

C

- Calcofluor white, fungus detection with, in Pap-stained preparations (abstract), 271

Cancer

- See also Carcinoma(s); particular types
cervical, invasive, after negative cytology screening or biopsy (abstract), 394
colonic, carcinoembryonic antigen levels in, determined by Roche RIA® and Abbott EIA® methods, 589
pancreatic. See under Pancreas

- Carcinoid(s)**
gastric, adenocarcinoma concurrent with, 233; (letter), 538
malignant, psammoma bodies in metastases of (letter), 403
primary, of central nervous system (abstract), 392
- Carcinoma(s)**
See also Adenocarcinoma(s)
anaplastic thyroid, 135
breast. See under Breast
cervical
cervical carcinoma antigen, carcinoembryonic antigen and non-specific cross-reacting antigen in cervical smears, 301
small cell, pathologic spectrum of (abstract), 263
in chronic ulcerative colitis, colonoscopy with biopsy for detection of (abstract), 262
of colon, asbestos bodies in, in insulation worker with asbestos exposure (abstract), 392
nasopharyngeal, antikeratin immunohistochemistry and electron microscopy in diagnosis of, 320
ovarian, cytologic detection of cancer cells in effusions in, sensitivity enhancement with monoclonal antibodies, 571
of pancreas. See under Pancreas
renal cell, in childhood and adolescence (abstract), 395
small cell
of cervix, pathologic spectrum of (abstract), 263
of rectum, with *Listeria monocytogenes* sepsis in AIDS, 385
squamous cell, of anal canal, 159
urothelial, urinary cytodiagnosis in (abstract), 393
- Cardiac catheterization, with quantitative cultures, false localization of endocarditis site by, 130**
- Cardiopulmonary bypass surgery, plasma, monocyte- and lymphocyte-associated fibronectin during, 629**
- Case finding, for adult thyroid disease, 346**
- Cast(s), urinary. See Urinary cast(s)**
- Castleman's disease. See Giant lymph node hyperplasia**
- Cefotaxime, cellular penetration of (abstract), 398**
- Ceftriaxone, cellular penetration of (abstract), 398**
- Cell(s)**
See also particular cells
fat-soring, in alcoholic liver disease, histochemical characteristics, 47
hematopoietic, simultaneous morphologic, cytochemical, and surface antigen analysis of, 7
luteinized, testosterone secretion by, in virilized postmenopausal woman, 101
stromal, in intracranial hemangioblastoma, histogenesis of (abstract), 394
- Cell division, rapid, severe hypophosphatemia and (abstract), 397**
- Cephalosporin(s), third-generation, cellular penetration of (abstract), 398**
- Cerebrospinal fluid, immunoglobulin class concentrations in, in central nervous system disorders, 190**
- Cervix**
cervical carcinoma antigen, carcinoembryonic antigen and nonspecific cross-reacting antigen in smears, 301
invasive cancer of, after negative cytology screening or biopsy (abstract), 394
small cell carcinoma of, pathologic spectrum of (abstract), 263
- Chemiluminogenic probe(s), phagocyte function quantification using (abstract), 268**
- Chemistry, clinical**
adoption of SI units for reporting (editorial), 536
test changes in young abstinent male alcoholics, 474
- Chemotherapy, for acute myeloblastic leukemia, Hemalog-D® examination for predicting remission following, 73**
- Chemstrip® leukocyte esterase-nitrite dipstick, screening for significant bacteriuria with, 84**
- Chemstrip 9™ urine dipstick, screening for urinalysis and urine culture using, 740**
- Chickenpox. See Varicella**
- Chlamydia trachomatis, isolation of, in sonicated vs. nonsonicated specimens, 625**
- Chloroacetate esterase, acute lymphoblastic leukemia positive for, 647**
- Chondrosarcoma, in Paget's disease of bone, 594**
- Chromatography**
capillary column gas, clinical drug screen using (abstract), 268
gas-liquid, rapid yeast identification by (abstract), 271
ion-exchange
IgM isolation with, for acute phase serodiagnosis, 488
separation of Toxoplasma-specific IgM antibodies by, in toxoplasmosis diagnosis, 196
- Cirrhosis, primary biliary, alpha-1-antitrypsin deposits in liver in, 503**
- Coagulation disorder(s)**
See also particular disorders
in multiple myeloma, due to heparin-like anticoagulant, 764
- Coagulation test(s)**
See also particular tests
reliability in samples containing streptokinase (abstract), 399
- Colitis, ulcerative. See Ulcerative colitis**
- Colon**
cancer of, carcinoembryonic antigen levels in, determined by Roche RIA® and Abbott EIA® methods, 589
carcinoma of, asbestos bodies in, in insulation worker with asbestos exposure (abstract), 392
- Colonoscopy, biopsy with, for dysplasia and carcinoma detection in chronic ulcerative colitis (abstract), 262**
- Colony count(s), low, in urinary tract infections, septicemia and, 619**
- Complement**
activation in liquid and frozen plasma (abstract), 399
C1q, immunostaining, in glomerulopathy diagnosis, 415
C3, in endometrial spiral arteries in early pregnancy, 633
- Complement fixation, cytomegalovirus antibody detection with, 622**
- Compromised host, infection in. See Infection(s), opportunistic**
- Computer(s)**
See also Microcomputer(s)
data analysis model using, for laboratory test use studies (abstract), 396
data base approach to laboratory use, 707
panel red cell selection using, for antibody identification (abstract), 397
program for erythrocyte antibody identification (abstract), 268
- Contraceptive(s), oral, uterine leiomyoma; with acute hemorrhagic necrosis associated with use (abstract), 261**
- Cornea, abscess of, due to *Klebsiella ozaenae*, 655**
- Cost control**
case-finding approach to adult thyroid disease, 346
computer-based data analysis model applied to laboratory test overuse (abstract), 396
electronic leukocyte differentials in, 547
- Coulter Counter® Model S-Plus II, lymphocyte percent as indicative of actual lymphocyte numbers, 34**
- Coulter Counter® Model S-Plus IV**
evaluation, 40
leukocyte differentials on, comparative evaluation, 547
low platelet counts on, 78
- Counter(s)**
See also particular models
intracellular parasites missed by, in babesiosis, 520
multichannel, quality control of, using Bull's algorithm, 337
- Creatine kinase, isoenzyme, regional activity in brain and selective regional vulnerability to ischemia (abstract), 264**
- Crossmatch, abbreviated, experience with routine use (letters), 133, 133**

- Cryptococcus, liver involvement in, in acquired immune deficiency syndrome, 582
- Culture(s)
See also Medium(-a)
blood, quantitative, with cardiac catheterization, false localization of endocarditis by, 130
tissue, viral recovery using sonicated passage method, 500
urine, screening for, with Chemstrip 9™, 740
- Cunninghamella bertholletiae*, infection in renal transplant patient, 747
- Cyclosporin, in renal transplant treatment, vascular toxicity associated with (abstract), 270
- Cystic fibrosis, secondary amyloidosis in (abstract), 261
- Cystitis cystica glandularis, histologic and immunohistochemical study (abstract), 263
- Cystosarcoma phyllodes, fibroadenoma and, ultrastructural study (abstract), 401
- Cytochemical preparation(s)
immunocytochemical phenotyping of lymphoproliferative disorders using (abstract), 265
Wright-stained, for malignancy detection in body fluids (abstract), 260
- Cytochemistry
See also Immunocytochemistry; Stains and staining; particular procedures and stains
of cytoplasmic inclusions in acute lymphoblastic leukemia, 527
hematopoietic cell analysis by, and simultaneous surface antigen analysis by fluorescent microsphere technic, 7
- Cytokeratin, monoclonal antibodies to, Paget's cell study using, 431
- Cytology
See also Cell(s); particular cells; Histocytology
aspiration biopsy. See Biopsy(-ies), aspiration
cancer cell detection in effusions, sensitivity enhancement by monoclonal antibodies, 571
criteria for pancreatic carcinoma diagnosis, 171
cytochemical, Wright-stained slides for malignancy detection in body fluids (abstract), 260
- Cytomegalovirus
detection of, in open-lung biopsy specimens, 371
isolation, using sonicated passage method, 500
serologic tests for antibody detection, 622
- Cytometry, flow
cytochemical preparations compared with, for immunocytochemical phenotyping of lymphoproliferative disorders (abstract), 265
fluorescence, P blood group antigens detected on platelets using, 731
two-color, in smooth muscle tumor evaluation (abstract), 401
- Cytopathic effect/dye-uptake method, rapid interferon assay using, 735

D

- Dade antithrombin III assay. See Protopath® antithrombin III assay
- Dade fibrinogen assay. See Data-Fi®
- Data, tests for departure from normal in, 642
- Data base, Regenstrief Clinical Laboratory System, 707
- Data-Fi®
comparative evaluation, 541
fibrinogen values during thrombolytic therapy, aca® results compared (abstract), 399
- Decision-making
case-finding approach to adult thyroid disease, 346
medically useful criteria for analytic precision of laboratory tests, 200
- Desmosome(s), demonstration of, in nasopharyngeal carcinoma, by electron microscopy, 320

- Diabetes insipidus, extramedullary hematopoiesis causing, 509
- Di-ethyl hexyl phthalate, accumulation in thawed fresh frozen plasma, 59
- Dipstick(s)
See also Chemstrip® entries
leukocyte esterase, amnionitis detection using (abstract), 271
- Drowning. See Near-drowning
- Drug(s)
See also Susceptibility testing; particular drugs
screening for, using capillary column gas chromatography (abstract), 268
- DuPont aca®
antithrombin III and fibrinogen assays, comparative evaluation, 541
fibrinogen values during thrombolytic therapy, Data-Fi® results compared (abstract), 399
- Dysplasia(s), cervical, cervical carcinoma antigen, carcinoembryonic antigen and nonspecific cross-reacting antigen in cervical smears, 301
- Dysplastic nevus syndrome, polycythemia vera and primary hyperparathyroidism with, 512

E

- EDTA, agglutination of blood sample in, due to EDTA-dependent panagglutinin, 534
- Education
of directors in interstate laboratories, 480
national in-service examination for pathology residents, 1
- Effusion(s), cancer cell detection in, sensitivity enhancement with monoclonal antibodies, 571
- Electrical injury, full layer skull necrosis resulting from, regeneration after (abstract), 393
- Electron microscopy
See also Immunoelectron microscopy; Ultrastructure
of IgA nephropathy in children and adults, 669
transmission, rapid staining of ultrathin sections for, with microwave oven, 639
- Electrophoresis, high-resolution two-dimensional, serum protein genetic phenotype analysis using (abstract), 269
- ELISA. See Immunoassay(s), enzyme-linked immunosorbent
- ELT-8®, spurious macrocytosis due to cold agglutinins on, 218
- Embolus(-i), renal tubular epithelial cells in glomerular capillary loops, needle biopsy procedure and, 716
- Endocarditis, infective, false localization of, by cardiac catheterization with quantitative cultures, 130
- Endocrine overactivity, myxomas and cutaneous or mucocutaneous pigmentation with (abstract), 395
- Endometrium
estrogen and progesterone binding to, in different menstrual phases, 444
papillary adenocarcinoma of (abstract), 393
- Endotoxemia, in neonatal necrotizing enterocolitis, thrombocytopenia and, 227
- Enterocolitis. See Necrotizing enterocolitis
- Enterovirus(es), rapid identification by host cell susceptibility pattern (abstract), 271
- Erythrocyte(s)
antibodies. See under Antibody(-ies)
autoantibodies to, simplified radioimmunoassay for, 12
shape changes in β -thalassemia/HbE disease, quantitative analysis and clinical correlation, 555
- Erythrocyte distribution width (RDW), in anemias, clinical significance, 222
- Erythrocyte panel(s)
computerized selection of, by phenotype (abstract), 397
microcomputer interpretation of, 469

- Erythrocyte sedimentation rate, marrow iron prediction using (abstract), 266
- Estrogen, binding of, to endometrium, in different menstrual phases, 444
- Estrogen receptor(s)
in breast tumor cytosols, IgG levels and, 364
interference of O.C.T.* embedding compound in assay (letters), 404, 404

F

- Factor VII, cold-promoted activation of, inhibition of, in siliconized borosilicate tubes, 492
- Factor VIII inhibitor(s), agarose gel method for identification and quantification of, 697
- Fatty acid(s), essential, diagnosis of deficiency (abstract), 396
- Ferritin, serum
iron store determination using, in sickle cell anemia, 76
marrow iron prediction using (abstract), 266
- Fetus, immunohistology of liver, spleen, and thymus, clinical correlations (abstract), 264
- Fibrinogen
discrepant values during thrombolytic therapy, aca* and Data-Fi* results compared (abstract), 399
DuPont aca* measurement of, comparative evaluation, 541
- Fibroadenoma, cystosarcoma phyllodes and, ultrastructural study (abstract), 401
- Fibroblastoma, giant cell, 165
- Fibronectin, plasma, monocyte- and lymphocyte-associated, during cardiopulmonary bypass surgery, 629
- Fibrosarcoma, in Paget's disease of bone, 594
- Fibrosis, hepatic. See under Liver
- Fixative(s), for terminal deoxynucleotidyl transferase assay by fluorescent avidin method, 565
- Flow cytometry. See Cytometry, flow
- Fluid(s)
cytologic detection of cancer cells in, sensitivity enhancement with monoclonal antibodies, 571
cytologic examination of, CA-I antigen's usefulness in (abstract), 400
- Fluorescence. See Autofluorescence; Immunofluorescence
- Foam-stability-index test, interlaboratory precision, 382
- Follicular center(s), progressively transformed, immunohistochemical analysis of, 560
- Fungus(-i)
See also particular genera
detection in Pap-stained preparations, calcofluor white for (abstract), 271

G

- Gamma glutamyl transpeptidase, urinary, as indicator of renal allograft rejection (abstract), 395
- Ganglioneuromatosis-lipomatosis, alimentary tract, adrenal myelolipomas, pancreatic telangiectasias and multinodular thyroid goiter with, 744
- Gastroenteritis, *Aeromonas sobria*, in adult, 389
- Gastrointestinal tract
See also particular structures
development of, in benign cystic teratoma, 236
- Gaucher's disease, lipid storage in brain in, 516
- Giant cell tumor, in Paget's disease of bone, 594
- Giant lymph node hyperplasia, multicentric, followed by Kaposi's sarcoma in AIDS, 27
- Glomerulonephritis, C1q immunostaining in diagnosis of, 415
- Glomerulosclerosis, focal segmental, in IgA nephropathy in adults, 669

- Glucocerebroside, deposition in brain in Gaucher's disease, 516
- Glucose oxidase, anti-tissue antibody assay using, 601
- Glycol methacrylate, kidney sections embedded in, enzyme histochemistry in, 605
- Gold chloride method, fat-storing cells studied with, in alcoholic hepatic disease, 47
- Gonococcus. See *Neisseria gonorrhoeae*
- Gonorrhea, Gonozyme* for diagnosis of, 613
- Gonozyme*, gonorrhea diagnosis using, 613
- Granulocyte(s)
See also Basophil(s)
autoantibodies to, simplified radioimmunoassay for, 12
- Granulomatosis
benign lymphocytic angitis and, spontaneous, in NZB/W mice (abstract), 266
silicate, after near-drowning in muddy water, 240

H

- Health benefits, calculation of, for case-finding approach to adult thyroid disease, 346
- Hemalog-D*, for predicting remission after chemotherapy for acute myeloblastic leukemia, 73
- Hemangioblastoma(s), intracranial, histogenesis of stromal cell in (abstract), 394
- Hemangioma(s), sclerosing, of lungs, immunohistochemical study (abstract), 264
- Hematopoiesis, extramedullary, diabetes insipidus due to, 509
- Hematopoietic cells. See under Cell(s)
- Hemophilia
A, prolonged bleeding time in, Ivy vs. Simplate* method and clinical associations, 211
inverted T4/T8 ratios and human T-cell lymphotropic virus-I in, 450
- Heparin
therapy adjusted for body weight, 378
thrombocytopenia and thrombosis induced by, detection and specificity of platelet-aggregating IgG in, 760
- Hepatic fibrosis. See under Liver
- Hepatitis
antibodies. See under Antibody(-ies)
antigens. See under Antigen(s)
B, vaccine, selection of candidates for (letters), 538, 539
non-A non-B, chronic, histology of (abstract), 400
- Hepatocyte(s), cytoplasmic inclusions in, in marrow transplant patients, 65
- Herpes zoster
See also Varicella-zoster virus
cytopathologic diagnosis of (abstract), 395
- Hirschsprung's disease
acridine orange in confirmation of, 722
immunohistochemistry in diagnosis of, 177
- Histochemistry
See also Immunohistochemistry; particular technics
enzyme, in plastic-embedded kidney sections, 605
steroid binding to endometrium in different menstrual phases, 444
- Histocytology, pancreatic cancer diagnosis by percutaneous aspiration biopsy under ultrasonic guidance, 409
- Hodgkin's disease, overwhelming postsplenectomy infection with *Plesiomonas shigelloides* in cured patient, 522
- β -Human chorionic gonadotropin, monoclonal immunoenzymatic semiquantitative serum assays for, comparative evaluation (abstract), 396
- Hybritech TANDEM-Visual* assay, for β -hCG, comparative evaluation (abstract), 396

- Hydrocephalus, cerebrospinal fluid immunoglobulin class concentrations in, 190
- Hypercholesterolemia, heterozygous, animal model (abstract), 400
- Hyperparathyroidism, primary, polycythemia vera and, in dysplastic nevus syndrome, 512
- Hyperthecosis, atypical ovarian, in virilized postmenopausal woman, 101
- Hypophosphatemia, severe, rapid cell division as etiology of (abstract), 397
- IgG, IgM. See under Immunoglobulin(s)

I

- Immunoassay(s)**
See also Radioimmunoassay(s); particular substances, kits and procedures
enzyme
for carcinoembryonic antigen, in biliary obstructions, 589
for gonorrhea diagnosis, 613
enzyme-linked immunosorbent (ELISA)
cytomegalovirus antibody detection with, 622
quantitative, for platelet-associated IgG, 331
- Immunobeads®, simultaneous B and T cell identification with, 182
- Immunocompromised host, infection in. See Infection(s), opportunistic
- Immunocytochemistry
See also particular techniques
